

# ZERO CONTACT Smart Delivery

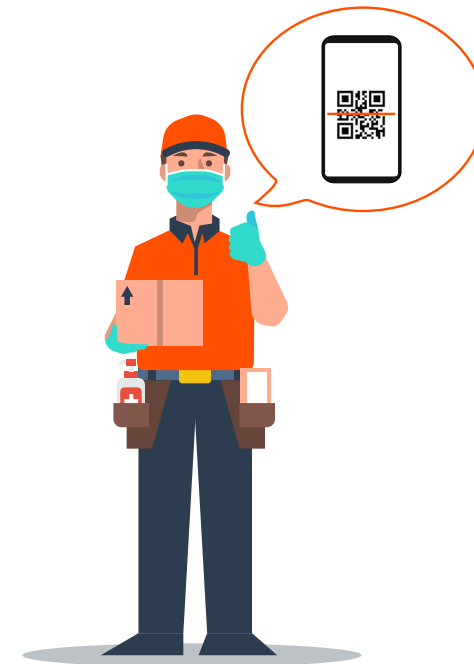

As the consignee for a **NACEX** service, we wish to inform you that a **NEW** form of delivery is available to you, **CONTACT ZERO**:

## How does it work?

You will receive an alert by sms or email, informing you that you should expect a delivery to be made to you. This message will include a **QR Code** to facilitate a safe delivery, without the need for you to sign.

At the time the messenger arrives at your home to make the delivery, **you must have the QR code at hand in order to show them it**. In this way, the messenger will be able to capture the QR code with their Smartphone in order to complete the **CONTACT ZERO** delivery.

## RELIABILITY

**Reliability** of the **CONTACT ZERO** delivery option is guaranteed, given that the **link between the QR code and the delivery service is checked**. Hence, correct and convenient delivery is ensured, without the need to sign or take note of the consignee's personal information. At the same time, we keep both you and our personnel safe.
